

# CONFERENCE AIMS 2006

## ADDENDA – ERRATUM

### **Sponsors/Partenaires :**

Ministère de l'Education Nationale, de l'Enseignement Supérieur et de la Recherche, France.

---

### **Coffee Breaks/pauses-café :**

Coffee breaks will be served near Theater A. Amphi 501 on Sunday morning and Wednesday morning. The other coffee breaks will be served near Theater P. Amphi I and Theater A. Amphi 501 (since there are more classrooms in the Physics building, there will be more « coffee materials » in this building).

---

### **Restaurants near the conference site/Restaurants proche du site de la conférence :**

There is a shopping mall within walking distance of the conference site (west from the conference site, 2 avenue Lafayette, bus stop : Stade) where you can find a supermarket (closed on Sunday), a Casino Cafétéria (self-service restaurant), a restaurant, several snack-bars (closed on Sunday) and two fast-food restaurants (McDonald's and Quick). Furthermore, at 5 minutes walk north of the conference site, there is a shopping mall (Les Templiers, Place des Templiers in Beaulieu) where you can find a small supermarket, a bar and a Boulangerie (they will probably be closed on Sunday).

---

### **Note to all chairs/Note à tous les présidents de sessions :**

The time slots indicated on the program correspond to the time for the talks and also for questions/discussions. We would like to ask you to follow, as much as possible, the times indicated, as many participants will go from one talk to another.

CS2 :

The talk of R. Mert, scheduled on wednesday, 09:30-10:00, is rescheduled on tuesday, 10:00-10:30.

---

CS4 :

The talk of I. Tikhonova, scheduled on wednesday, 17:30-18:00, is rescheduled on tuesday, 08:00-08:30.

---

CS9 :

Monday, june 26, CS9-2 : Add

09:00-09:30 Traveling front solutions in nonlinear diffusion degenerate Fisher-KPP and Nagumo equations via Conley index

**Hamad Talibi Alaoui**, Université Chouaib Doukkali, Morocco

Tuesday, june 27, CS9-1 : Add

10:00-10:30 A uniqueness result for a problem involving stress-driven diffusion

**Weiqing Xie**, CalPoly Pomona, USA

Wednesday, june 28 : CS9-1

17:30-18:00 : Change I. Karabash, Donetsk National University, Ukraine, to Takeshi Taniguchi, Kurume University, Japan.

Add CS9-2 :

Chair G. Porru                      Room : P.122

16:00-16:30 Second order estimates for boundary blow-up solutions of elliptic equations

**Giovanni Porru**, University of Caligari, Italy

16:30-17:00 Dead core for nonlinear parabolic problems under Robin boundary conditions

**Stella Vernier-Piro**, University of Caligari, Italy

17:00-17:30 New exact solutions to the system of nonlinear diffusion-kinetic equations

**Elena Vyazmina**, Russia

17:30-18:00 A linearly implicit finite difference scheme method for a Klein-Gordon-Schrödinger-type system modeling dissipative electron-ion plasma waves

**Pavlos Xanthopoulos**, Max-Planck Gesellschaft, Germany

18:00-18:30 Existence and regularity results for the primitive equations

**Madalina Petcu**, Université Paris XI, France
