

Parallel Session 14**Thursday, July 5, 13:30PM-15:30PM**

Special Session 32	Existence and Multiplicity Results in Elliptic Variational Problems Organizer(s): G. Bonanno, S. Carl, S. A. Marano, D. Motreanu	Location REH-9
13:30-14:00	CANCELLED Salvatore Marano (University of Catania, Italy) Multiple solutions to Dirichlet eigenvalue problems with p-Laplacian	Abstracts p. 144
14:00-14:30	Giovanni Molica Bisci (University of Reggio Calabria, Italy) Variational problems in Geometrical Analysis	Abstracts p. 145
14:30-15:00	Arnaldo S Nascimento (Universidade Federal de Sao Carlos, Brazil) Count and Symmetry of Global and Local Minimizers of the Cahn-Hilliard Energy Functional over Cylindrical Domains.	Abstracts p. 145
15:00-15:30	Addolorata Salvatore (Universita' di Bari, Italy) Symmetric problems in unbounded domains	Abstracts p. 146
