

Dr. Ryan Unger

University of California, Berkeley
USA

Ryan Unger was born in Germany in 1997. He received his undergraduate degree from the University of Tennessee, Knoxville, in 2019 and his PhD from Princeton University in 2024 under the supervision of Mihalis Dafermos. His research interests lie in general relativity and geometric analysis. For his thesis work on extremal black holes, he was awarded a Jacobus Fellowship from Princeton University and the Jürgen Ehlers Thesis Prize from the International Society on General Relativity and Gravitation. After spending a year at Stanford University under a National Science Foundation fellowship, he is currently a Miller Postdoctoral Fellow at the University of California, Berkeley.
